The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

- k. Description of Request: Southern California Edison Company (licensee or SCE) is requesting to surrender its license for the Borel Hydroelectric Project and the disposition of all Borel Project facilities (i.e., removal, modification, or abandonment in place). SCE is surrendering the Borel Project license because the U.S. Army Corps of Engineers (Corps) implemented a safety modification to its Lake Isabella Auxiliary Dam for which the Corps condemned 10.7 acres of private and public land associated with the Borel Project and sealed off the existing section of conduit through the Auxiliary Dam by filling it with concrete and

abandoning the conduit in place. This action rendered the Borel Project nonfunctional and therefore SCE is seeking to surrender the Project license.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding.
